

Benefit Notice - Take advantage of your OTC Program

Dear Plan Member,

According to your benefit plan, The Catholic Diocese of Palm Beach members have access to an Over-The-Counter prescription drug program effective August 1, 2007. The OTC program provides access to well known drugs (denoted below) that are commonly used to treat gastro esophageal reflux disease (GERD). If you are being treated for this condition we would like to remind you to take advantage of this program, which makes these products available to you at a co-pay of \$0. In order to utilize the OTC prescription drug program, please follow the guidelines listed below under "How does it work?" These directions will ensure that the pharmacy (retail or mail) does not charge you.

Get this approved Over the Counter (OTC) Drug for no cost!

Proton Pump Inhibitors (PPIs)

Brand Drug

Zegerid OTC
Prilosec OTC

Co-Pay

\$0 (Premium Plan) or \$0 (Standard Plan)
\$0 (Premium Plan) or \$0 (Standard Plan)
\$0 (Premium Plan) or \$0 (Standard Plan)

How does it work?

- Step 1: Consult your physician to see if your condition can be effectively treated using a less costly alternative such as a name brand OTC. Prevacid OTC, Zegerid OTC, and Prilosec OTC are available with this program.
- Step 2: Provide a written prescription from your physician with authorization to use the Over the Counter alternative. Even though you are normally not required to obtain a prescription from your physician for an over the counter medication, to take advantage of this offer, you must provide a written prescription from your physician with authorization to use the Over the Counter alternative. **Note: The doctor must write the prescription as *Brand Necessary* in order to receive the name brand OTC medication; otherwise, the generic will be dispensed.**
- Step 3: Present your prescription card with the RxEDO logo on it and receive the benefit of no cost for your Prevacid OTC, Zegerid OTC, or Prilosec OTC prescription!
