

# THEME PARK / FIELD TRIP SAFETY TIPS

For parents

*In crowds at Theme Parks, on Field Trips and other activities:*

- Make sure your child knows where you are at all times, whether your child is a toddler or a high school student.
- Never leave your child unattended. Identify the park attendants in the area in case your child is separated from you. Teach your child your cell phone number in case he/she may need it.
- Talk to you child about saying “No” to any unwanted talk or contact with others while at the park. Notice anyone in the crowd who may try to pay a great deal of attention to your child.
- Take a picture of your child on your cell phone before you enter the park—you will have a picture of exactly what your child is wearing in case he/she gets separated from you.
- Supervise your child when he/she has to use the restroom.
- Remember that your child depends on you for his/her safety. Children are gifts given to us by a loving God and they are deserving of the time and effort it takes for us to protect them.
