# Take It Down

## Having nudes online is scary, but there is hope to get it taken down.

Take It Down is a free service that can help you remove or stop the online sharing of nude, partially nude, or sexually explicit images or videos taken of you when you were under 18 years old.
## Here's how it works:

Visit TakeItDown.NCMEC.org and click on "Get Started".

Select the image or video on your device that you're concerned about.

Take It Down will assign a unique digital fingerprint, called a hash value, to the image or video.

▶ The hash will be shared with participating online platforms that can use it to detect copies of these images or videos on their services and take action to remove the content or limit the spread. This all happens without the image or video ever leaving your device or anyone viewing it, and you don't have to share any personal information.

Remember, losing control of your image could happen to anyone, and you're not alone. **For more information about how NCMEC can help, visit**
